

claim 2. Accordingly, these claims have been canceled without prejudice. Thus, this objection should be withdrawn.

Claims 16-19 remain rejected under Section 112, first paragraph and under Section 103 as obvious in view of Webb et al. and in view of Campbell when combined with Frankel or Webb et al. or Wright et al.

Applicant adamantly does not agree with these rejections and does not acquiesce to these rejections. However, in the interest of obtaining protection for at least some of the embodiments of his invention, these claims have been canceled without prejudice. Applicant specifically reserves all rights to prosecute the subject matter of these claims in a subsequent continuation or divisional application.

In light of the above, attorneys for Applicant submit that these rejections have been avoided.

In view of the above amendments and remarks, attorneys for Applicant submit that since the only remaining claims have been allowed, this application is in form for issuance and early action to that end is respectfully solicited.

Date 1/17/92

Respectfully submitted,

S. Leslie Misrock
